EPA is extending the public comment period for the December, 2011 draft EPA report, "Investigation of Ground Water Contamination near Pavillion, WY," until January 15, 2013. This extension will provide additional time for the public to review reports by USGS and EPA that contain the results of the re-sampling of monitoring wells in the Pavillion area. A Federal Register announcing the extension will be published during the week of October 8, 2012.
